

Perf. Flat sheets 03

Stainless steel AISI 304

PcP flat sheet is a popular item available for fabrication by others, this product is particularly useful to provide enhanced slip resistance or screening where no loadings are to be considered, for example applying over an existing solid flooring with fixing and design by others. This item is available self-colour for fabrication welding and finishing. Comprising of 14mm dia punched raised holes and 8.5mm dia depressed drainage holes, in 2mm thick material. This punched profile provides excellent slip resistance.

Specifications

PTV guidelines	36+ Low Slip Potential
Dry PTV average	73
Wet PTV average	51
Slip resistance	R13 = slope >35° acc. to DIN 51130
Displacement space	V10 acc. to DIN 51130
Free area	28-32 %
Upward grip holes	dia. 14
Downward drainage holes	dia. 8,5 mm
C-C grid	36 x 36 mm
